From the Director

As I write this, a group of excited children are learning about bees and their societies downstairs, pretending to be workers gathering nectar and attending to their queen to the music of "Flight of the Bumblebee". Others are out fishing for invertebrates in the ponds, or making the "Big Hike" out to the "Big Tree". Outside, the osprey chicks have fledged and are slowly learning to fend for themselves, although Mom and Dad are still bringing fish to the nest. All around are the sounds of nature, and people learning about nature. That's how we roll, and it's wonderful to be here on these days.

It's also wonderful that our place has a sense of endurance. This fall, November 18 to be exact, Woodland Dunes will be 40 years old. What started as Bernie's dream has seen 40 years, 1,300 acres protected, and 100,000 children taught. We should all be proud of what we have done together as an organization.

Our summer education program has been busier than ever, thanks to the hard work of Jessica and our interns, Kayla, Rose, Nick and Connor. Our other intern, Rachel, also helps with many tasks around the Nature Center, such as feeding the indoor animals and cleaning after a busy day with education programs. We thank them all for their excellent work, tremendous attitude and wish them well as they go back to college. They have been outstanding additions to our staff, and we will truly miss them. We are grateful to Silver Lake College, Nancy Horvath and the Hooper Foundation, as well as the Wisconsin Association for Independent Colleges and Universities (through a grant from the West Foundation), for making it possible for us to hire these outstanding young people to work with us.

Through the Restore the Shore project, we planted more than 2,000 trees and shrubs this spring and summer, and tended to their needs. We are working with several surrounding landowners including the City of Two Rivers to restore habitat, and we're anxious to watch our sites develop. If you travel down Columbus St., you'll see our plantings at Zander Park, in the field north of 12th St., and on Memorial Drive at the Rotary Garden wayside. We're also improving part of our preserve just north of the Aurora Medical Center with the removal of old buildings and planting of about 1,000 bird-friendly trees and shrubs. This property is very close to the lake and is already excellent for birding. These plantings will make it even better.

Just north of that site is a parcel that will see the development of a new wetland, thanks to the assistance of Wisconsin Public Service. This will be the largest wetland restoration we have attempted, and will involve the re-grading of much of this old agricultural field, which is now drained by a ditch. The result will be a large wet meadow/sedge meadow with a stream meandering through. This will provide a better habitat for both birds and even some spawning habitat for fish that travel up the ditch from Lake Michigan. We plan to begin work this fall, after birds are done nesting for the year.

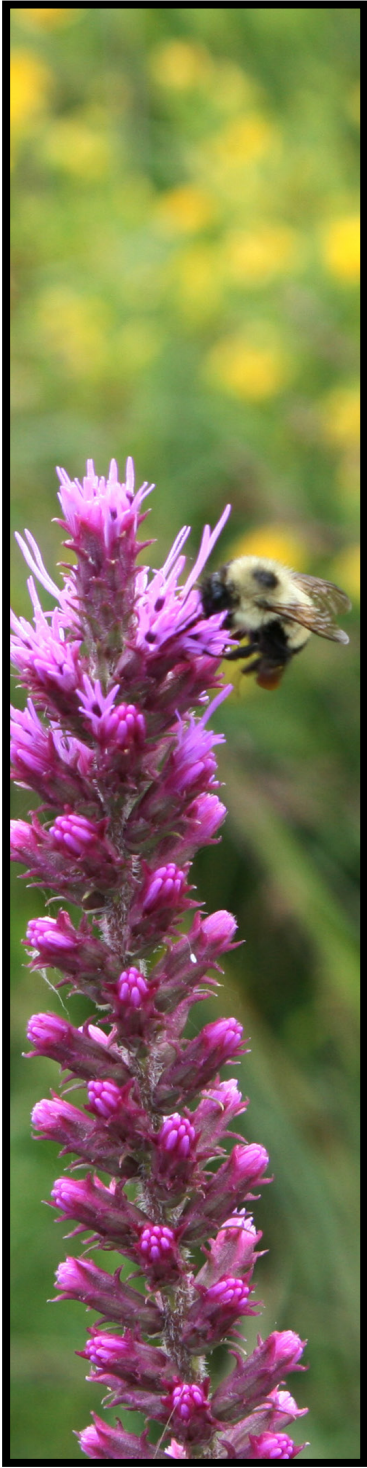

Our nature center will see the construction of a new bird observation area in the Edna Smith room, thanks to a donation from the Alyea family. The plans for this project are being drawn at this time and are expected to be carried out this fall.

In our preserve, we are increasingly concerned about the emerald ash borer and the impact it will have on our forest, especially the seasonally flooded swales. We are seeking funding for a project that will involve planting several species of native trees with the intent of increasing diversity in the forest in case the Asian insects kill our green and black ash, which seems likely at this point.

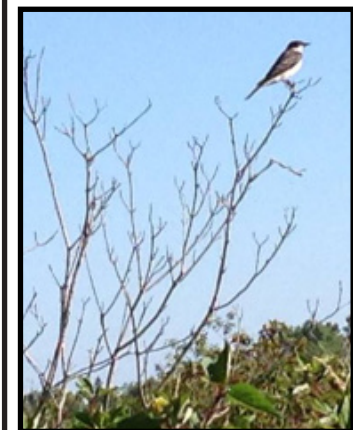

There will be some changes to our fall school programs and our migration season bird banding that will insure that Jessica and I have plenty to do this season! We are grateful for the help from our wonderful volunteers who make these and all our programs possible.

Watch our website and Facebook page for information on the many activities planned for this fall, and thank you so much for your help and support.

Jim Knickelbine

Coming Events

Friday Morning Bird Walks

Fridays
8:15am

Join director Jim Knickelbine or a Woodland Dunes naturalist on a weekly route and help document the bird species on the preserve. Meet at the Nature Center and bring binoculars.

**The Wonder of It All:
Recycling Center Tour**
Wednesday, September 10th
2:00-3:30pm

Enjoy an educational tour of the Manitowoc County Recycling Center. Learn what is and isn't recyclable, why some items are recycled and others are not, where your recyclables go, and how it all fits into the big picture of solid waste reduction in Manitowoc County. Topics will also include an overview of municipal composting, electronics recycling, and special waste collections. Participants must wear closed-toed shoes and dress for the weather. Limited to 25 people. Registration required.

Sponsored by the Dominion Foundation.

Enchanted Forest
Saturday, October 4th
4:00-8:00pm

Members: \$4 per person
Non-Members: \$5 per person
Children ages 2 and under are free

Walk along a candlelit trail and meet some of Mother Nature's favorite (costumed) animals. The outdoor, self-guided hike has surprises around every turn! Enjoy warm refreshments inside and games and activities outside. This is an educational evening, not a scary one.

Please wear costumes and warm clothes. Registration required. Call or email to reserve a tour time soon. Times fill quickly!

Monarch Tagging Program

Tuesday, September 2nd
4:30 - 6:00pm

Rain Date: Wednesday, September 3rd at 4:30pm
Help tag monarch butterflies before their long journey to Mexico. Local monarch enthusiast, Ann Shebesta, will explain the importance of tagging these beautiful butterflies. Participants who have raised their own monarchs are invited to bring them and they will be tagged and released. Meet at the Nature Center and dress for the weather.

Kids' Nature Club
9:00-11:00am

Dates and Topics:

September 11th- Learn how seeds move, go on a seed hunt and build your own seed.

October 9th - Enjoy a scavenger hunt and nature craft

November 13th- Learn about the unique world of spiders.

Admission: \$2 per child

All families with children and teens are invited to the Kid's Nature Club! Enjoy a guided nature walk followed by a guided nature activity. Please bring weather appropriate clothing, binoculars if you have them, a water bottle and comfortable shoes/boots. Kids' Nature Club is for all ages, especially young children. Children/teens must be accompanied by an adult. RSVP to Margaret Pauwels at obytml@yahoo.com or 732-1562, by the Monday before the program.

Owl Fest

Saturday, October 18th
4:00-10:00pm

Members: \$15 family, \$5 individual
Non-Members: \$20 family, \$8 individual

Join us for an exciting evening learning about owls! Owl prowling night hikes, family activities, live raptor presentations by Wildlife of Wisconsin and bird banding programs (weather permitting) will make this an evening a night to remember. Park at the Aurora Medical Center on Memorial Dr. (next to the hospital), then hike or travel by bus to the Owl Fest location.

Watch our website and Facebook for the schedule of events.

Coming Events

Star Party

Saturday, November 1st
7:00-10:00pm

Donations are appreciated.

Join a local astronomer and view night sky constellations, the moon and other celestial objects through telescopes. Bring a lawn chair and your own telescope or binoculars if you wish. Weather permitting. Program takes place at the Nature Center. Register by Thursday, October 30th.

The Wonder of It All: The Great Peshtigo Fire - What Your Teacher Never Told You

Friday, November 21st at 6:00PM

The Great Peshtigo Fire was the deadliest fire in American history; it is also the least understood. Award-winning author Scott Knickelbine unravels Wisconsin legend to reveal what actually happened the night of the Peshtigo Fire, explaining how the timing of the fire (on the same evening as the Chicago Fire) was no mere coincidence. Copies of his youth nonfiction book, *The Great Peshtigo Fire: Stories and Science from America's Deadliest Fire*, will be for sale at the program. Registration required by November 17th.

Sponsored by the Dominion Foundation.

Save-the-Date

Christmas Bird Count for Kids
Saturday, December 27th
\$2 per child

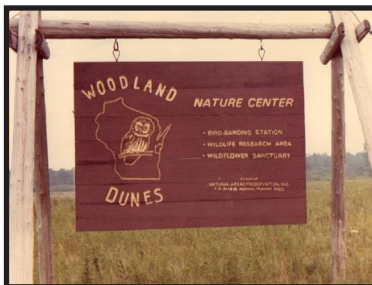

Learn birding basics at binocular boot camp. Then enjoy a friendly morning counting birds for the National Audubon Society's 115th Christmas Bird Count. Small groups led by experienced birders will walk a trail, document bird species and tabulate results. The bird count is for children ages 8 and up.

Kids ages 4-7 can join us for Budding Birders while their older siblings are on the trail. Learn about birds and help decorate a tree for the birds! Kids must be accompanied by an adult. Registration required by December 20th. Call 920-793-4007 or email jessicaj@woodlanddunes.org

Getaway to the 70's Fundraiser

Saturday, November 15th
6:00-9:00pm

Location: Holiday Inn, Manitowoc

Come celebrate our 40th anniversary! Woodland Dunes Nature Center was organized in 1974, so it is only fitting that the theme for our fundraiser this year is the 70's!

Enjoy drinks, appetizers, a live band, silent and live auction, and of course, a costume contest! Can you dig it? Do us a solid and support the Nature Center!

Admission:

Register by November 7th: \$20 per person
Register at the door: \$25 per person

Event Schedule:

Social Hour:

Drinks, appetizers, live music and the start of the silent auction
6:00-7:00pm

Birthday Celebration:

Birthday cake and a short Woodland Dunes presentation
7:00-7:30pm

Live Auction:

7:30-8:15pm

Last Call for Silent Auction:

8:15pm

Silent Auction Closes:

8:30pm

Mingling and Silent/Live Auction Pickup:

8:30-9:00pm

Registration will be available on our website at www.woodlanddunes.org by the beginning of September.

Thank you

Education Support

Thank you to all Teacher Naturalist's who helped with summer programs! We could not offer the community these amazing opportunities without you!

Volunteer Spotlight

Mike Pintok and Cindy Lupin

We met Mike and Cindy when they attended one of the Wonder of It All programs last year. They had just moved from Minnesota and were interested in getting to know the area better. Mike and Cindy lead monthly nature walks for kids, greet visitors at the front desk and attend many programs and events. They are always smiling and eager to share recent bird and other nature sightings.

Thank you Mike and Cindy!
We appreciate you!

Get to Know Mike and Cindy:

1. About how long have you been volunteering at Woodland Dunes?

About 1 year

2. What made you decide to volunteer here?

We were interested in nature and the activities offered at Woodland Dunes.

3. What do you most enjoy about being involved with Woodland Dunes?

Learning more about wildlife and meeting new people with similar interests.

4. What are some of your other favorite hobbies or pastimes?

Birding, reading, traveling, pets, artwork and cooking.

5. What is your favorite bird? Is there a reason why?

Indigo bunting because of its iridescent beauty.

Osprey Camera

Thank you again, FORWARD Endowment and Cellcom for the new osprey camera and monitor that was funded this year! The same pair of ospreys that nested last year returned to their home again this year at our Nature Center!

The osprey had three offspring and the babies have now fledged and are learning to survive on their own! In a few weeks, they will migrate to Central and South America. The pair will separate when they migrate and meet back at the same nest next year!

First Baby Born- June 2nd

The second baby was born a day later, and the last was born five days after. The third was significantly smaller, but survived!

Mom feeding the babies

Babies practicing how to fly

Education

Our nest will soon be empty! Through generous support from the Hooper Foundation, Wisconsin Association for Independent Colleges and Universities and Silver Lake College, we were fortunate enough to have four college interns join us for the summer. Their help was invaluable and allowed us to further our mission.

With their help, we were able to:

- *Remove invasive plant species from 4 acres of the preserve
- *Plant and care for 2,000 native trees and shrubs
- *Provide 150 hours of Clean Boats Clean Waters education at local boat launches
- *Educate more than 550 children about the environment
- *Keep our trails and grounds maintained
- *Create education materials
- *Build a kid-sized brush pile for our fall education program

Top left to right: Connor Messerschmidt, Nick Lardinois
Bottom left to right: Kayla Walsh, Rose Neumeyer

Nick, Connor, Kayla and Rose: Thank you for all your hard work this summer! We wish you all the best!

My time at Woodland Dunes as an environmental education intern has been both rewarding and fun. I've enjoyed leading kids through the woods and wetlands, and doing hands-on projects along the way. Students' sense of discovery is never waning and I enjoy sharing my love of nature with them. Sometimes, we learn new bird calls and beetle names together! It's been a wonderful summer working with the local community and the Woodland Dunes staff!

-Kayla Walsh

I feel extremely blessed to have had the opportunity to work as an intern here at Woodland Dunes Nature Center & Preserve since February. I will definitely be sad to see this learning experience come to a close. I have enjoyed learning about the unique ecological habitat that includes ridges and swales which provide homes to a variety of fauna and displays a diversity of flora. I have had the opportunity to learn about the many educational programs that are offered to children and have even assisted in teaching some of them. I have currently been working on creating learning materials for the little wings room that are inspired by nature. I have also been working on a research project in the preserve studying the effects of non-native, invasive shrubs on understory flora. I am very appreciative for the educational opportunities and the chance to meet such amazing people; both the staff and the community have been amazing, supportive, and inspiring.

-Rose Neumeyer

I am remarkably grateful for the opportunity to be a part of the wholesome and communal organization that is Woodland Dunes. Whether it was picking the brains of the outstanding people around me, helping a child connect with nature, or planting one of the hundreds of trees this summer, I was ceaselessly excited for each day. As a direct result of my experience at Woodland Dunes and witnessing the importance of such a place to so many community members, human or not, I am now more interested in pursuing a career in the private non-profit sector of aiding the environment. In the fall, I will be returning to UW-Madison to complete my undergraduate degrees in environmental studies, economics, and political science and begin an accelerated Master's program in environmental policy.

-Nick Lardinois

Coming into this summer I was choosing between an internship here at Woodland Dunes, or one at a botanical garden near Milwaukee; and I am so happy that I made the right decision. My ten weeks here at Woodland Dunes has been better than I could have expected and the people here have made me feel right at home. Whether it was different volunteers from the community or the other staff and interns, everybody has been so welcoming and genuinely interested in who I am and where I was going. Not only that, but I have also learned so much over my time here and I know that the experiences and people I met will become invaluable to me as I continue on in both my personal and professional life.

-Connor Messerschmidt

Land Management

Program Update

We are wrapping up our first season of invasive species removal and tree planting for our Restore the Shore project. We have a little under one thousand trees left to plant this fall, and invasive species work is always ongoing (except in the depths of winter). We will be starting work on some Japanese knotweed and Phragmites removal along the West Twin River and East Twin River as part of a few grants we received. This will not only protect the Woodland Dunes preserve from invasion by these species, but also benefit the watershed and our community.

Our Barberrryan work days will continue into the fall as well. Once all the remaining trees are planted, we will shift our focus to removing as much invasive species as possible before the snow flies. The efforts of all of our volunteers are greatly appreciated, and immediate results can be seen both in the brush piles of cut down invasives, and in the numerous white tree tubes protecting our newly planted natives. This exciting project will also yield even greater birding opportunities, right in the city.

On Saturday, September 13 we will be participating in the first ever state-wide Aquatic Invasive Species (AIS) Bridge Snapshot Day. Training will be provided in the morning and volunteers will go out to pre-determined sites on the West Twin River and East Twin River to look for invasive species and then return to Woodland Dunes Nature Center to report their findings. The event runs from 9am-1pm and interested volunteers can get more information and register at, <http://www.wisconsinriv-ers.org/events/display/item/snapshot-day>.

Program Work Days

Come join Woodland Dunes for the Whack 'Em Wednesdays and Sock 'Em Saturdays work days! Work will involve using hand tools to cut the invasive species and spray bottles to apply small amounts of herbicide to the remaining stem. All necessary equipment will be provided and refreshments will also be provided afterward at the Nature Center. Work days will last 2 hours and are weather dependent. Please register a week prior to any work day so we can contact you if we need to cancel due to weather.

Whack 'Em Wednesdays (WEW)
Starting at 10:00am at the Nature Center

September 10th and 24th
October 8 and 22nd

Stop 'Em Saturdays (SES) SES
Starting at 10:00am at the Nature Center

October 11th

Ways of Giving

If you would like to support Woodland Dunes by donating a specific item, or funds towards that item, we are in need of the items listed below:

- ATV for land management projects
- Black oil sunflower seed
- Books in the Little Wings Room

**please email jessicaj@woodlanddunes.org for book wish list*

Woodland Dunes is a non-profit organization and provides educational programs for youth and adults while maintaining 1300 acres of land for the community to enjoy free of charge. Please consider making a donation.

I wish to support Woodland Dunes with the following donation:

\$10___ \$25___ \$50___ \$100___ \$200___ Other_____

Name (please print)_____ Phone_____

Address_____

City_____ State_____ Zip_____

Please make checks payable to Woodland Dunes and return this form with your donation:

Woodland Dunes, P.O. Box 486, Two Rivers, WI 54241

Christmas Nature Baskets

You may be thinking,
"It is only September and we are talking about Christmas??"

We are excited to offer a Nature Basket option to your Christmas shopping this year! Choose from the different nature items listed and create your own basket. The baskets will not have a shipping option, but you can certainly pick up your baskets when they are finished and send them to your loved ones!

If you are interested in purchasing a gift basket, your order and payment will be due by November 1st.

Baskets will be available for pick up starting December 12th during business hours.

Order forms will be available on the website, www.woodlanddunes.org and at the Nature Center by the first week of September.

Butterfly Fest 2014

Butterfly Festival was on August 16th from 9am-12pm at the Nature Center. Around 60 people attended and enjoyed all the activities that were offered.

Inside the Nature Center we had honey extraction demonstrations, butterfly identification and butterfly rearing programs, and information on the life cycle of a butterfly.

Butterfly cycles and rearing

Honey extraction

Outside we offered scavenger hunts in the Butterfly Garden, butterfly art activities, paper making which contained flower seeds so families could plant their paper creation, compost information, music programs, and a nature hike on Willow Trail. Butterfly cookies and lemonade were also available for purchase!

Butterfly art activity

Music program

A huge thank you to Thrivent Financial Manitowoc Chapter for sponsoring the event again this year! Having this type of support lets us offer these types of programs and events to the community.
